## Welcome to Ignite@CU!

Dear Ignite@CU attendees,

The Columbia Organization of Rising Entrepreneurs (CORE) aims to inspire, educate, and launch the next generation of entrepreneurs. We lead a variety of campus and city-wide events and opportunities to enrich the spirit of entrepreneurship. The Ignite@CU conference is an important part in fulfilling our mission.

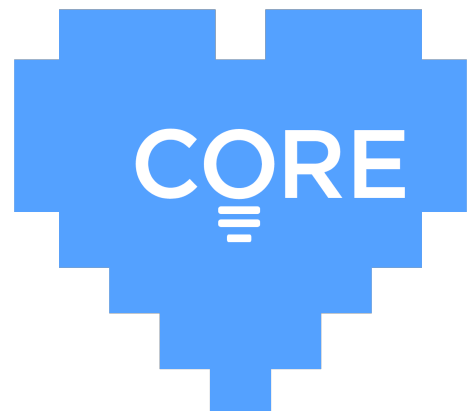

So many different pieces came together to make this conference possible. We are thrilled to be collaborating with our partner schools to bring you content for students, by students. This weekend could not take place without our amazing panelists and speakers, and we're honored that they devoted time to our conference. Our wonderful sponsor companies have supported Ignite@CU and our mission from the very beginning. Finally, we have to thank the Ignite@CU team and the larger CORE team for their dedication and effort to make Ignite@CU the best conference we can create. Without their help, we know without a doubt that Ignite@CU would not be what it is today.

Ignite is just one of the many initiatives run by CORE, and we're excited to get to know you all so that we can build powerful relationships to help guide the future of undergraduate entrepreneurship. On behalf of the Columbia Organization of Rising Entrepreneurs, we could not be more excited to welcome you to Ignite@CU and Columbia University for an incredible weekend of entrepreneurship.

Sincerely,

Sara Sakowitz and Josh Zweig  
Conference Directors

## Additional Food and Neighborhood Spots

While food will be provided at Ignite@CU, should you feel the need to get something more to eat, or head off campus, check out these food spots in the neighborhood:

### **Sweet Green**

Head to Sweetgreen to try one of the newest and most popular restaurants around campus! Order one of Sweetgreen's delicious salads or make your own. To beat the line and save time you can even pre-order your salad online and pick it up in store.

### **Dig Inn**

Dig Inn serves delicious and relatively inexpensive "farm to table" food. You can select a variety of dishes like salmon and grilled chicken served on a bed of grains, along with delicious sides like roasted sweet potatoes, kale and squash, mac and cheese, and much more! Dig Inn has sit down seating but it's also great for taking food to go!

### **Hamilton Deli**

Come try Columbia's go-to sandwich destination! From BLTs to Philly Cheesesteaks, Hamilton Deli traverses the entire sandwich spectrum. And rest assured -- you'll be getting the best bang for your buck. HamDel is a no-frills establishment that focuses on you, the sandwich, and a labor of love.

### **Milano Market**

Benvenuti! This Italian-themed deli offers quality meals for a reasonable price. Hand-tossed, made-to-order salads? Killer chicken parm sandwiches? Delectable soups - with complimentary bread? Milano has it all!

### **Koronet**

Be sure to try some big pizza while you're in the Big Apple! Koronet stretches the physical limits of pizza proportions. Walk in with less than \$5 and walk out with a slice that you probably won't finish alone -- it's pretty decent, too. Repeat process when inebriated and it's twice as good!

### **Five Guys**

In a time when Portobello mushrooms and ramen patties have infiltrated the burger domain, Five Guys is the burger-lovers' last stand. Complete with free peanuts, unlimited toppings,

---

and fries that boast an irresistible crispety-crunch, this iconic joint gives us a bit of stability -- and hope -- within a rapidly changing burger landscape.

### **Chipotle**

Your flagship spot. You know the drill: burritos, tacos, bowls, and quesaritos (if you know what you're doing). Just prepare for a long line and hope they forget to charge you for guac.

### **Halal Food Carts**

Numerous carts, dependable flavor, affordable prices -- this is the beauty of perfect competition! Whether you're trying save a few shekels or you're just craving a lamb gyro, don't be afraid to try one of the many Halal carts in the neighborhood. (Our favorite is on 115th and Broadway, but we encourage you to branch out!)
